GO ELECTRIC. GO ANYWHERE

Everything EV

Wherever you are in your electric vehicle journey, we're here to help. From buying and charging to expert advice and trusted info, we're your go-to for everything EV.

Charging network

The largest regional charging network in Australia, with over 50 locations and more to come.

Electric vehicle loans

If you're ready to buy an electric vehicle, enjoy a 1.5% discount on the current rate with our new EV loans.*

Online community

Access our friendly online forum where you can connect, share your knowledge and discuss EVs.

Vehicle inspections

We've partnered with RedBook Inspect so you can purchase a used EV with confidence.

Hire an EV

SIXT have a range of EVs available to hire, and for a limited time, NRMA Members get 25% off.^

Roadside assistance

The same legendary cover for hybrids and EVs, plus we're rolling out mobile electric vehicle charging.^

WELL HELLO, AUSTRALIA!

At long, long last, after 2 years in the making the **Fully Charged SHOW** finally lands 'Down Under' with its first **Fully Charged LIVE Australia**. Let's start with the positives, with the welcome we've already received and the clear interest in all things electric, we will be back in 2024!!!

While the UK is shrouded in uncertainty, it's uplifting to see a nation embracing the opportunities that the energy transition offers. There is no doubt in our minds that Australia can be a clean energy superpower, and our team can almost feel the positive energy from back in Britain.

While 10 of us have made the trip, we would like to thank the 30 or so that haven't, but without whom this event wouldn't have been possible. Personally, I feel incredibly conflicted, this is our 8th **Fully Charged LIVE** event globally, and as the only person to have attended all 7 so far, I am sad to see my streak end, but I am excited for everyone who gets to attend, and share in the very special atmosphere. There are many reasons why these events are so unique, but chief amongst them all is the man that started it all – Robert Llewellyn – I can think of few people in the world (that don't own Twitter) that have had such a profound effect on the uptake of clean energy and electric vehicles.

We've always worked to build the **Fully Charged LIVE** shows in his image – inspiring, fun and educational – and that's why the central attraction at all of our events are the 'live sessions' within the Giga Theatre (sponsored by Polestar) and the Mega Theatre (sponsored by Enphase). In addition to Robert, your hosts this year will be two of the biggest stars of the **Fully Charged SHOW** – Jack Scarlett and Elliot Richards. We would send even more of our presenting team, but as a channel about decarbonisation we are unable to justify flying all of our familiar faces from around the world. In fact, as with all of our overseas shows, we are in the process of building teams in each country, and we are delighted to be joined by some of Australia's best YouTubers, including Simone Annan (Car Tell TV) Rosemary Barnes (Engineering with Rosie) and Sam Evans (Electric Viking).

Above and beyond the theatres, we also have several other firm **Fully Charged LIVE** favourites for your enjoyment.

- **Giga Theatre**, sponsored by Polestar
- **Mega Theatre**, sponsored by Enphase Energy
- **Watt Drive?** sponsored by Electric Vehicle Council

- **Electric & Eclectic**, curated by Fellten
- **Fully Charged BUSINESS**, sponsored by Evie
- **Commercial Vehicle Zone**, sponsored by Geotab
- **Home Energy Advice Team**, sponsored by Origin Energy
- **Electric Café**, sponsored by MG
- **Electric Alley**
- **2-Wheel Test Track**
- **Family Fun Zone**

So far, so good! We're also proud to be able to say that we have 'almost every EV available' on display throughout the show and on our Electric Alley attraction too, what's more there are a limited number of test drives on our Watt Drive? programme. However, we have to be honest with you, getting car companies to participate at first year events is extraordinarily, infuriatingly difficult. I could write for hours on this subject, and while there is a mitigating factor (vehicle availability), we are frustrated with those that are not present, and we believe it is important that you know that we did absolutely everything in our power to get them here for transparency we have listed the companies that declined to participate or provide cars to our Electric Alley on the exhibitor page.

It is our experience from all of our different shows around the world, that when an absentee sees the quantity and quality of our audience, they quickly realise their mistake, and as testament to that, our 5th edition **Fully Charged LIVE** in the UK now attracts ~35,000 attendees and >300 exhibitors. So for those progressive organisations that have supported us in year 1, we recommend showering them with your love. Furthermore we would like to offer our formal and sincere thanks to our sponsors – Polestar, Enphase, Origin, MG, Geotab, Electric Vehicle Council, myenergi, Fellten, Good Car Co. & Evie – and of course to our headliners, the NRMA, without whom this first **Fully Charged LIVE Australia**, simply wouldn't have been possible.

Thanks for your support and enjoy the show!
Dan Caesar, CEO, Fully Charged

IMPORTANT INFORMATION

Opening Times – The show opens at 10.00 am on Saturday and Sunday. We would ask for your patience as you enter the show; queues are quite likely. The show closes at 5pm on both days.

How To Get Here – In the heart of Sydney, ICC is located in the active precinct of Darling Harbour on Cockle Bay, with a prime waterfront location. ICC Sydney features multiple public access points, and can be accessed on foot, by car, coach,

and light rail from various stops along Darling Drive, Darling Harbour. The address is 14 Darling Drive, Sydney, NSW 2000.

Disabled Access – The venue provides step-free access to every entertainment, exhibition and conference venue, wheelchair seating with adjacent carer seat in all theatre venues, lowered counters at key retail/service points and wheelchair and ambulant accessible restroom.

Presenting team: Robert Llewellyn, Simone Annan, Jack Scarlett, Sam Evans, Elliot Richards, Rosie Barnes & Giles Parkinson.

 **Test Drives & Rides** – You can book test drives directly with exhibitors, on their stands within the main exhibition. Test Drives will then depart from the main venue car park (located on the Ground Floor and accessed via Lift). 

Whether it is electric cars, or other electric vehicles, access to test drives in a supply constrained market is competitive. If you are unable to access the electric vehicles, our exhibitors will help facilitate opportunities after the event.
